Crime

Our Crime Analytics use hundreds of sophisticated spatial algorithms to process 9 million+ reported crimes into nationally comparable crime data of unprecedented accuracy, with complete coverage for every neighborhood and address in America.

How You Can Use Crime Analytics:

- Investing or lending: violent crime risk is the #1 cause of low property values in urban neighborhoods
- Know crime risk for every address/neighborhood
- Easily compare crime across neighborhoods with comparable crime scoring
- Unlock crime trends and forecasts to see if any location is declining or rising

What's Unique About Our Crime?

We provide exclusive crime risk analytics for every neighborhood in America with up to 98% predictive accuracy. Crime risk indices are nationally comparable on a 1-100 scale, where 100 means safer than 100% of U.S. neighborhoods. Crime risk data are updated annually. Raw crime incidents are sourced from all 18,000+ local law enforcement agencies - municipal, county, transit, park, port, university, tribal and more, assigned to localities, then built into the proprietary predictive models to provide a comprehensive crime risk profile for every neighborhood and address - vicinity in the U.S.
